Global Leadership Link (Hong Kong, China) 2027

Organizers:

Background

Global Leadership Link (Hong Kong, China) was first launched by Man Kwan Pak Kau College, iFuture and Centre of Excellence for Life Skills, Careers & Academics (CELSCA) in 2019. This programme blends world-class education experiences with immersive activities. The GLL programme takes an interdisciplinary approach towards inspiring students to be leaders at the forefront of creating innovative solutions to make our world a better place. The GLL series comprises three tracks – Global Issues, Science and Entrepreneurship.

Global Issues

The Global Issues component aims to nurture sensitivity in the identification of pressing issues and proposal of effective solutions. Participants will present ideas and receive feedback from experts who are well-versed in the fields of social science and social issues.

Science

The Science component aims to nurture budding scientists with an inquisitive mind, striving to solve problems with innovative solutions. Participants will share their inventions and research projects with notable scientists around the region.

Entrepreneurship

The Business component challenges students to turn patents into feasible business ideas that bring value in a real-world context. Through this exposure, classroom business theories will be brought to life. Participants will pitch their business solutions to leading organizations and industry experts.

Supporting Organizations:

‘Let Students Talk about Education’ International Conference 2027

Theme: Barrier-Free Education System: Nurturing the Whole Child
Topic : How can school policies and student life programmes be innovated to eliminate the developmental and social hurdles faced by SEN students in your country/region?

Background:
As society continues to embrace diversity and inclusion, the importance of special education has grown significantly. Students with learning needs often face unique challenges in accessing quality education and thriving in traditional classrooms. This year, under the theme **"Barrier-Free Education System: Nurturing the Whole Child,"** the presentation topic is **“How can school policies and student life programs be innovated to eliminate the developmental and social hurdles faced by SEN students in your country/region?”** Participants will explore ways to address these barriers, foster inclusive educational practices, and empower every learner to reach their full potential. By sharing experiences and solutions, this discussion aims to promote greater understanding and create learning environments where no student is left behind.

Objectives:
1. Sharing by students from different countries about special education, challenges students face, and possible solutions;
2. Keynote speech by professor from local university about special education and advice for teenagers;
3. If domestic or overseas teams choose to attend the conference in person, the organizing committee will arrange two days of exchange activities on May 14 and May 15. For teams that wish to stay in Hong Kong for additional learning activities, the organizing committee can help them contact travel agencies, allowing the teams to participate in such activities at their own expense.

Format: Keynote speeches, and online/in-person student exchange sessions
